

Lakeside's River Park Conservancy

Plant Nursery Volunteers

Duties

- Build and manage a plant nursery facility
- Propagate and maintain plants
- Supervise and teach volunteer workers
- Assist and advise out-planting of native plants in the field

Qualifications

- Enthusiasm for habitat restoration and plants
- Knowledge of horticulture and nursery practices
- Willingness to work outdoors in all weather and handle moderate physical labor

Lakeside's River Park Conservancy is a non profit organization dedicated to acquiring and restoring critical riparian habitat, while creating recreational opportunities along the San Diego River.

The River Park owns over 100 acres of land and has restored it to a functioning river system, refuge for endangered species and ground water recharge.

Get involved with this wonderful project and gain valuable work!

Volunteers who have a passion for native plants, want the challenge of building a plant nursery and can lead a others are invited to apply!
